WEDNESDAY WEEKLY WISDOM!

"EXCEL"

It's ok to sacrifice in order to excel.

Success lies in the desire to excel and the will to make it happen.

It's no accident why people excel.

Excel yourself at whatever you do. Effort costs nothing.

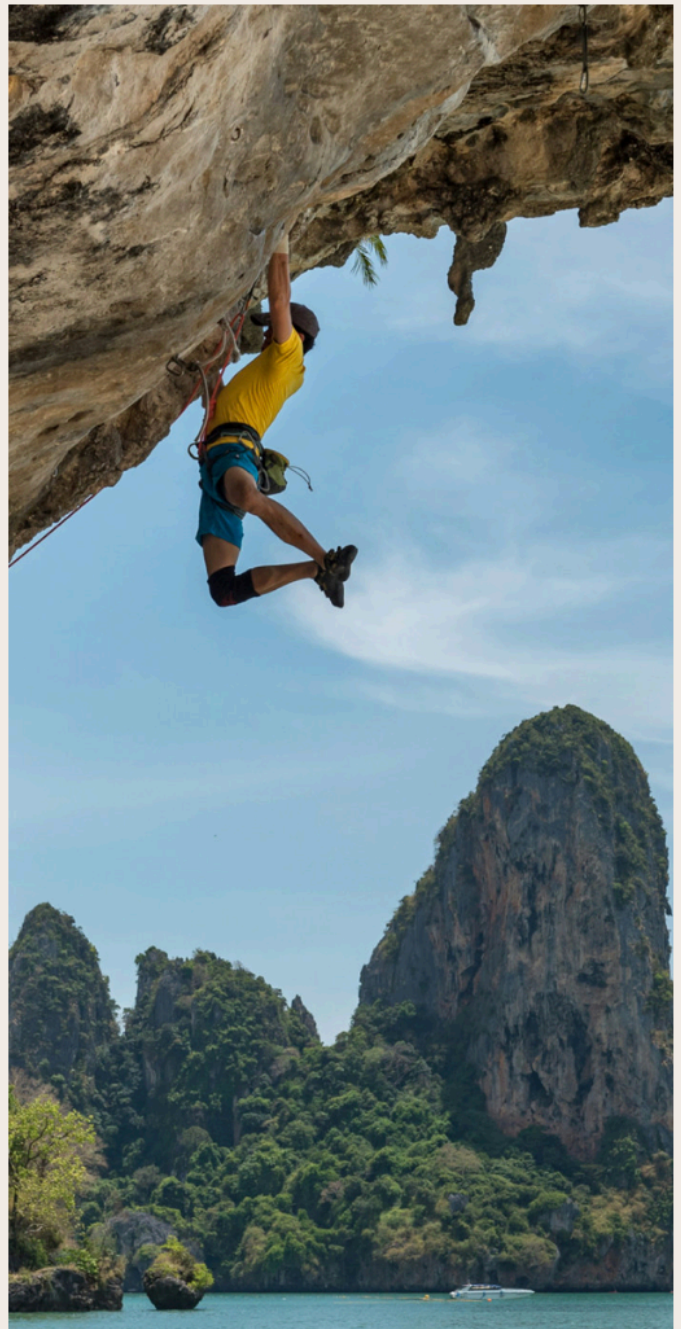

To excel is to do better today than yesterday.

Excel in something...follow through and don't be afraid.

Without the element of enjoyment, it is not worth trying to excel at anything.

Never excel at jumping to conclusions.

It's another day to excel!

Being The Best And Average Have Nothing In Common
